Forms can be found online at [DMV.Colorado.gov/forms-and-publications](https://dmv.colorado.gov/forms-and-publications)

### Qualifications

---

The State of Colorado issues license plates and placards to qualified persons with disabilities to park in reserved parking spaces. Disability parking is provided to assure that individuals requiring additional space to enter or exit their vehicles have the needed space and provide parking as close to the main entrance of a facility. The disability privilege allows a qualifying individual to park in any space marked with the International Symbol of Access.

To be considered “disabled” and eligible for persons with disabilities license plates and/or placards, the applicant must have a physical impairment that meets the standards of 23 CFR 1235 listed below and have it verified in writing by a Medical Professional\*.

1. **Mobility:** Persons who cannot walk two-hundred feet without stopping to rest.
2. **Assisted Mobility:** Persons who cannot walk without the use of, or assistance from, a brace, cane, crutch, another person, prosthetic device, wheelchair, or other assistive device.
3. **Respiratory:** Persons who are restricted by lung disease to such an extent that the person’s forced (respiratory) expiratory volume for one second when measured by spirometry is less than one liter, or the arterial oxygen tension is less than sixty mm/hg on room air or at rest.
4. **Oxygen:** Persons who use portable oxygen.
5. **Cardiac:** Persons who have a cardiac condition to the extent that the person’s functional limitations are classified in severity as Class III or IV according to the standards of the American Heart Association.
6. **Other:** Persons who are severely limited in their ability to walk due to an arthritic, neurological, or orthopedic condition.

\*Medical Professional means a physician licensed to practice medicine or practicing medicine under section 12-240-107(3)(i), a physician assistant licensed under section 12-240-113, a podiatrist licensed under article 290 of title 12, an advance practice nurse registered under section 12-255-111, or a physician, physician assistant, podiatrist, or advance practice nurse authorized to practice professionally by another state that shares a common border with Colorado. For the purposes of issuance of a ninety-day placard only, “professional” includes a chiropractor or physical therapist.

## Plate and Placard Restrictions

---

- Disability placards/plates are only to be used by the person to whom they are issued. The privilege does not extend to a qualified person who may be in a vehicle but not entering or exiting at a particular location.
- Each qualified person or owner may receive either one set (two plates) of license plates and one placard, OR two sets of plates, OR two placards.
- The placard must be visible by hanging from the rear view mirror at all times that the vehicle is parked in disabled parking. It must be removed before driving the vehicle. The placard may be used in any vehicle where the owner is a passenger or driver. When displaying the placard, you must carry the placard registration receipt.
- Plates are valid for one year and must be renewed annually. They must be clearly displayed at all times the vehicle is parked in disabled parking. Front and rear plates are required with the exception of motorcycles. No other plate may be attached to the vehicle.
- If the vehicle is jointly owned, the registration receipt will identify the owner authorized to use the plate or placard. If more than one owner is eligible for disability privileges, each owner must apply individually to exercise these privileges.
- Persons that also qualify for a military special license plate may have that license plate issued to them as a person with disability license plate. The person must meet both person with disability qualifications and qualifications for the military special license plate they are desiring to be issued.
