Mandatory or Voluntary Restricted Licenses Following Alcohol Conviction

In Accordance with §42-2-132.5, C.R.S., You Must Now Comply with the Following:

You must apply for, and hold, a license or permit, restricted to the use of an approved ignition interlock device, for the entire period of the license restriction, even if you do not intend to drive after your privilege is restored.

You will be required to qualify for this license by passing a written and basic drive test. If your driving privilege was restored by providing an Affidavit of Non-Ownership, the basic drive test will be postponed until your renewal to a non-restricted license, or until you have a vehicle equipped with an approved interlock device.

Please Be Advised of the Following:

During the period of license restriction (ignition interlock) you may only operate a motor vehicle equipped with an approved interlock device:

As a condition of your reinstatement you have agreed to install an interlock device in all motor vehicles you own, co own or have access to. If you are contacted operating any other vehicle during the period of license restriction (ignition interlock), or if any interlock device is bypassed or otherwise tampered with, you will be subject to immediate revocation of driving privilege. A violation of this license restriction is a class 1 traffic misdemeanor.

If your driving privilege was restored by providing an Affidavit of Non-Ownership, and you become an owner, co-owner or otherwise have access to a vehicle, you must obtain a signed lease agreement for the installation and use of an approved ignition interlock device as defined in 42-2-132.5 (6), C.R.S. for a period equal to the remaining period of the restricted (ignition interlock) license.

Your period of license restriction (ignition interlock) may be extended:

Data from your interlock device will be collected and forwarded to Driver Control regularly. The Department is authorized to extend your period of license restriction if attempts to operate the vehicle following alcohol consumption are reported. Failure to comply with an extended license restriction (ignition interlock), if ordered, or termination of any lease agreement before the end of the restricted licensing period will subject your driving privilege to an indefinite suspension.

When the period of license restriction (ignition interlock) has expired:

Your restricted (ignition interlock) license will be issued to expire 20 days after the interlock requirement is over. You may apply for a non-restricted license any time after the last day of your interlock requirement. Please apply for renewal to a non-restricted license (ignition interlock device no longer required) before having ignition interlock device removed from your vehicle(s).
